- 9.2 Investments of money not immediately required must be governed by the following investment objectives, in order of priority:

- 9.5 Under no circumstances may he/she be forced or bribed into making an investment.
- 9.6 Interest rates offered must not be divulged to another institution.

- 9.8 The Chief Financial Officer shall be responsible for investing the surplus revenues of the Municipality and shall manage such investments in consultation with the Municipal Manager and in compliance with any policy directives formulated by the Council and prescriptions made by the Minister of Finance.
- 9.9 In making such investments the Chief Financial Officer, shall at all times have only the best considerations of the Municipality in mind, and, except for the outcome of the consultation process with the Council shall not accede to any influence by or interference from Councillors, investment agents or institutions or any other outside parties.
- 9.10 Neither the Chief Financial Officer nor the Municipal Manager may accept any gift, other than an item having such negligible value that it cannot possibly be construed as anything other than a token of goodwill by the donor, from any investment agent or institution or any party with which the Municipality has made or may potentially make an investment.
- 9.11 Any gift regarded as token of goodwill by the donor must be declared in terms of the code of conduct and in terms of the Supply Chain Management Policy. A certificate of the gift should be furnished to the Council. The gift should not be in lieu of a commission.

10. INVESTMENT PRINCIPLES

10.1 Limiting Exposure

- 10.1.1 Where large sums of money are available for investment the Chief Financial Officer shall ensure that they are invested with more than one institution, wherever practicable, in order to limit the risk exposure of the Municipality. The Chief Financial Officer shall further ensure that, as far as it is practically and

legally possible, the Municipality's investments are so distributed that more than one investment category is covered (that is, call, money market and fixed deposits).

10.2 Risk and Return

10.2.1 Although the objective of the Chief Financial Officer in making investments on behalf of the Municipality shall always be to obtain the best interest rate on offer, this consideration must be tempered by the degree of risk involved in regard to both the financial institution and the investment instrument concerned. No investment shall be made with an institution where the degree of risk is perceived to be higher than the average risk associated with investment institutions. Deposits shall be made only with registered deposit-taking institutions (see 6.4 below).

10.3 Payment of Commission

10.3.1 Every financial institution with which the Municipality makes an investment must issue a certificate to the Chief Financial Officer in regard to such investment, stating that such financial institution has not paid and will not pay any commission and has not and will not grant any other benefit to any party for obtaining such investment.

10.4 Call Deposits and Fixed Deposits

10.4.1 Before making any call or fixed deposits, the Chief Financial Officer, shall obtain quotations from at least three financial institutions.

10.4.2 Given the volatility of the money market, the Chief Financial Officer, shall, whenever necessary, request quotations telephonically, and shall record in an appropriate register the name of the institution, the name of the person contacted, and the relevant terms and rates offered by such institution, as well as any other information which may be relevant (for example, whether the interest is payable monthly or only on maturity, and so forth).

10.4.3 Once the best investment terms have been identified, written confirmation of the telephonic quotation must be immediately obtained (by facsimile, e-mail or any other expedient means).

10.4.4 Any monies paid over to the investing institution in terms of the agreed investment (other than monies paid over in terms of part 7 below) shall be paid over only to such institution itself and not to any agent or third party. Once the

investment has been made, the Chief Financial Officer shall ensure that the Municipality receives a properly documented receipt or certificate for such investment, issued by the institution concerned in the name of the Municipality.

10.5 Restriction on Tenure of Investments

10.5.1 No investment with a tenure exceeding twelve months shall be made without the prior approval of the Council.

11.3 Creditworthiness

When investments are placed with smaller registered institutions, the Senior Finance Officer has to see to it that the Municipality is not exposed to too much risk. He/she has to ensure that the creditworthiness and performance of the institution are to his/her satisfaction, before investing money in the institution. The Senior Finance Officer is entitled to information from which the creditworthiness of financial institutions can be determined. This must be obtained and analysed annually.

 - i) the banking institution concerned has agreed to exempt any penalties due to early withdrawal of investment or;
 - ii) the Municipal Manager may grant approval to withdraw the invested funds after he/she has satisfied himself/herself that the urgency was unforeseeable at the time when funds were invested and that the need for funds far outweighs the penalties being paid for such early withdrawal.

- 18.3 If the accrual of interest to the external finance fund, unutilised capital receipts and trust funds results in a surplus standing to the account of any such funds, that is, an amount surplus to the resources required in respect of such funds or accounts, such surplus amount shall be credited by the Chief Financial Officer to the appropriation account and re-appropriated to the asset financing reserve.
