Copies of such performance agreements must be submitted to the council and the MEC for local government in the province.

## **2. IDP, Budget, SDBIP and PMS**

The SDBIP is just one of the important tools used to achieve the municipality's Vision and Mission which is contained in the municipal IDP. The Budget is what gives "life" to an SDBIP as this is the tool used to finance Councils projects within the community it serves. In essence, the SDBIP of a Municipality is the primary tool used to give effect to a municipal IDP and Budget within a specific year and serves as its one year operational plan which the municipal council utilizes to measure the implementation of its IDP and Budget. The PMS tool provides for constant Monitoring (Monthly, Quarterly, Bi-Annual and Annual Reporting) and Evaluation (1<sup>st</sup> and 3<sup>rd</sup> Quarter-Informal and Bi-Annual and Annual-Formal).

The figure below represents the relationship/link of the IDP, Budget, SDBIP and PMS:

## 7. Conclusion

In conclusion, this 2018/2019 Service Delivery and Budget Implementation Plan serves as the Abaqulusi Municipality's One Year Operational Plan. It is a document utilized to drive Service Delivery, whilst monitoring the use of the budget and the time-frames associated with Service Delivery. This is the primary tool that drives the Performance of a Municipality during which the Honourable Mayor of the Municipality will monitor the Performance of the Municipal Manager; the Municipal Manager monitors the performance of Senior Managers; and the Abaqulusi Community monitors the performance of the Municipality. Performance monitoring and reporting will be done on a Quarterly, Half-year and Annual basis keeping in line with the Municipality's PMS Policy Framework and will be subject to an adjustment during the adjustment budget process.
